EAN: 4030281020929

Standard: EN 341:2011/1D

E-class number: 40-02-01-06

Customs no.: 84798997

Data sheet

DEUS ONE

The DEUS ONE is a personal, fully automatic self-evacuation device. The very small, handy format offers intuitive operation in emergency situations and is ready-to-use due to its configuration with rope and steel carabiners. Without any necessary additional intervention in the abseiling process, even injured or unconscious persons arrive safely on the ground. The extremely compact and lightweight hybrid rope is only 5.9mm thick and heat-resistant up to 450°C. All components are packed very practically in a compact, protective rope bag, making it easy to take to any workplace.

- the smallest, fully automatic self-evacuation device on the market
- compact to carry on the person
- user weight range: 60kg -140kg

GENERAL

Internat. standard: ANSI Z359.4:2013

FEATURES

Colour: black / orange

Abseiling height: 20,00 m

Max. service life: 10 Years

Max. number of persons: 1

Temperature: from 45 °C to -10 °C

Suspension element: Aramid / Polyamid

DIMENSIONS

Size: 20

Weight: 2,14 kg

MATERIAL

Material:
Aluminium, Steel, Polyamide
